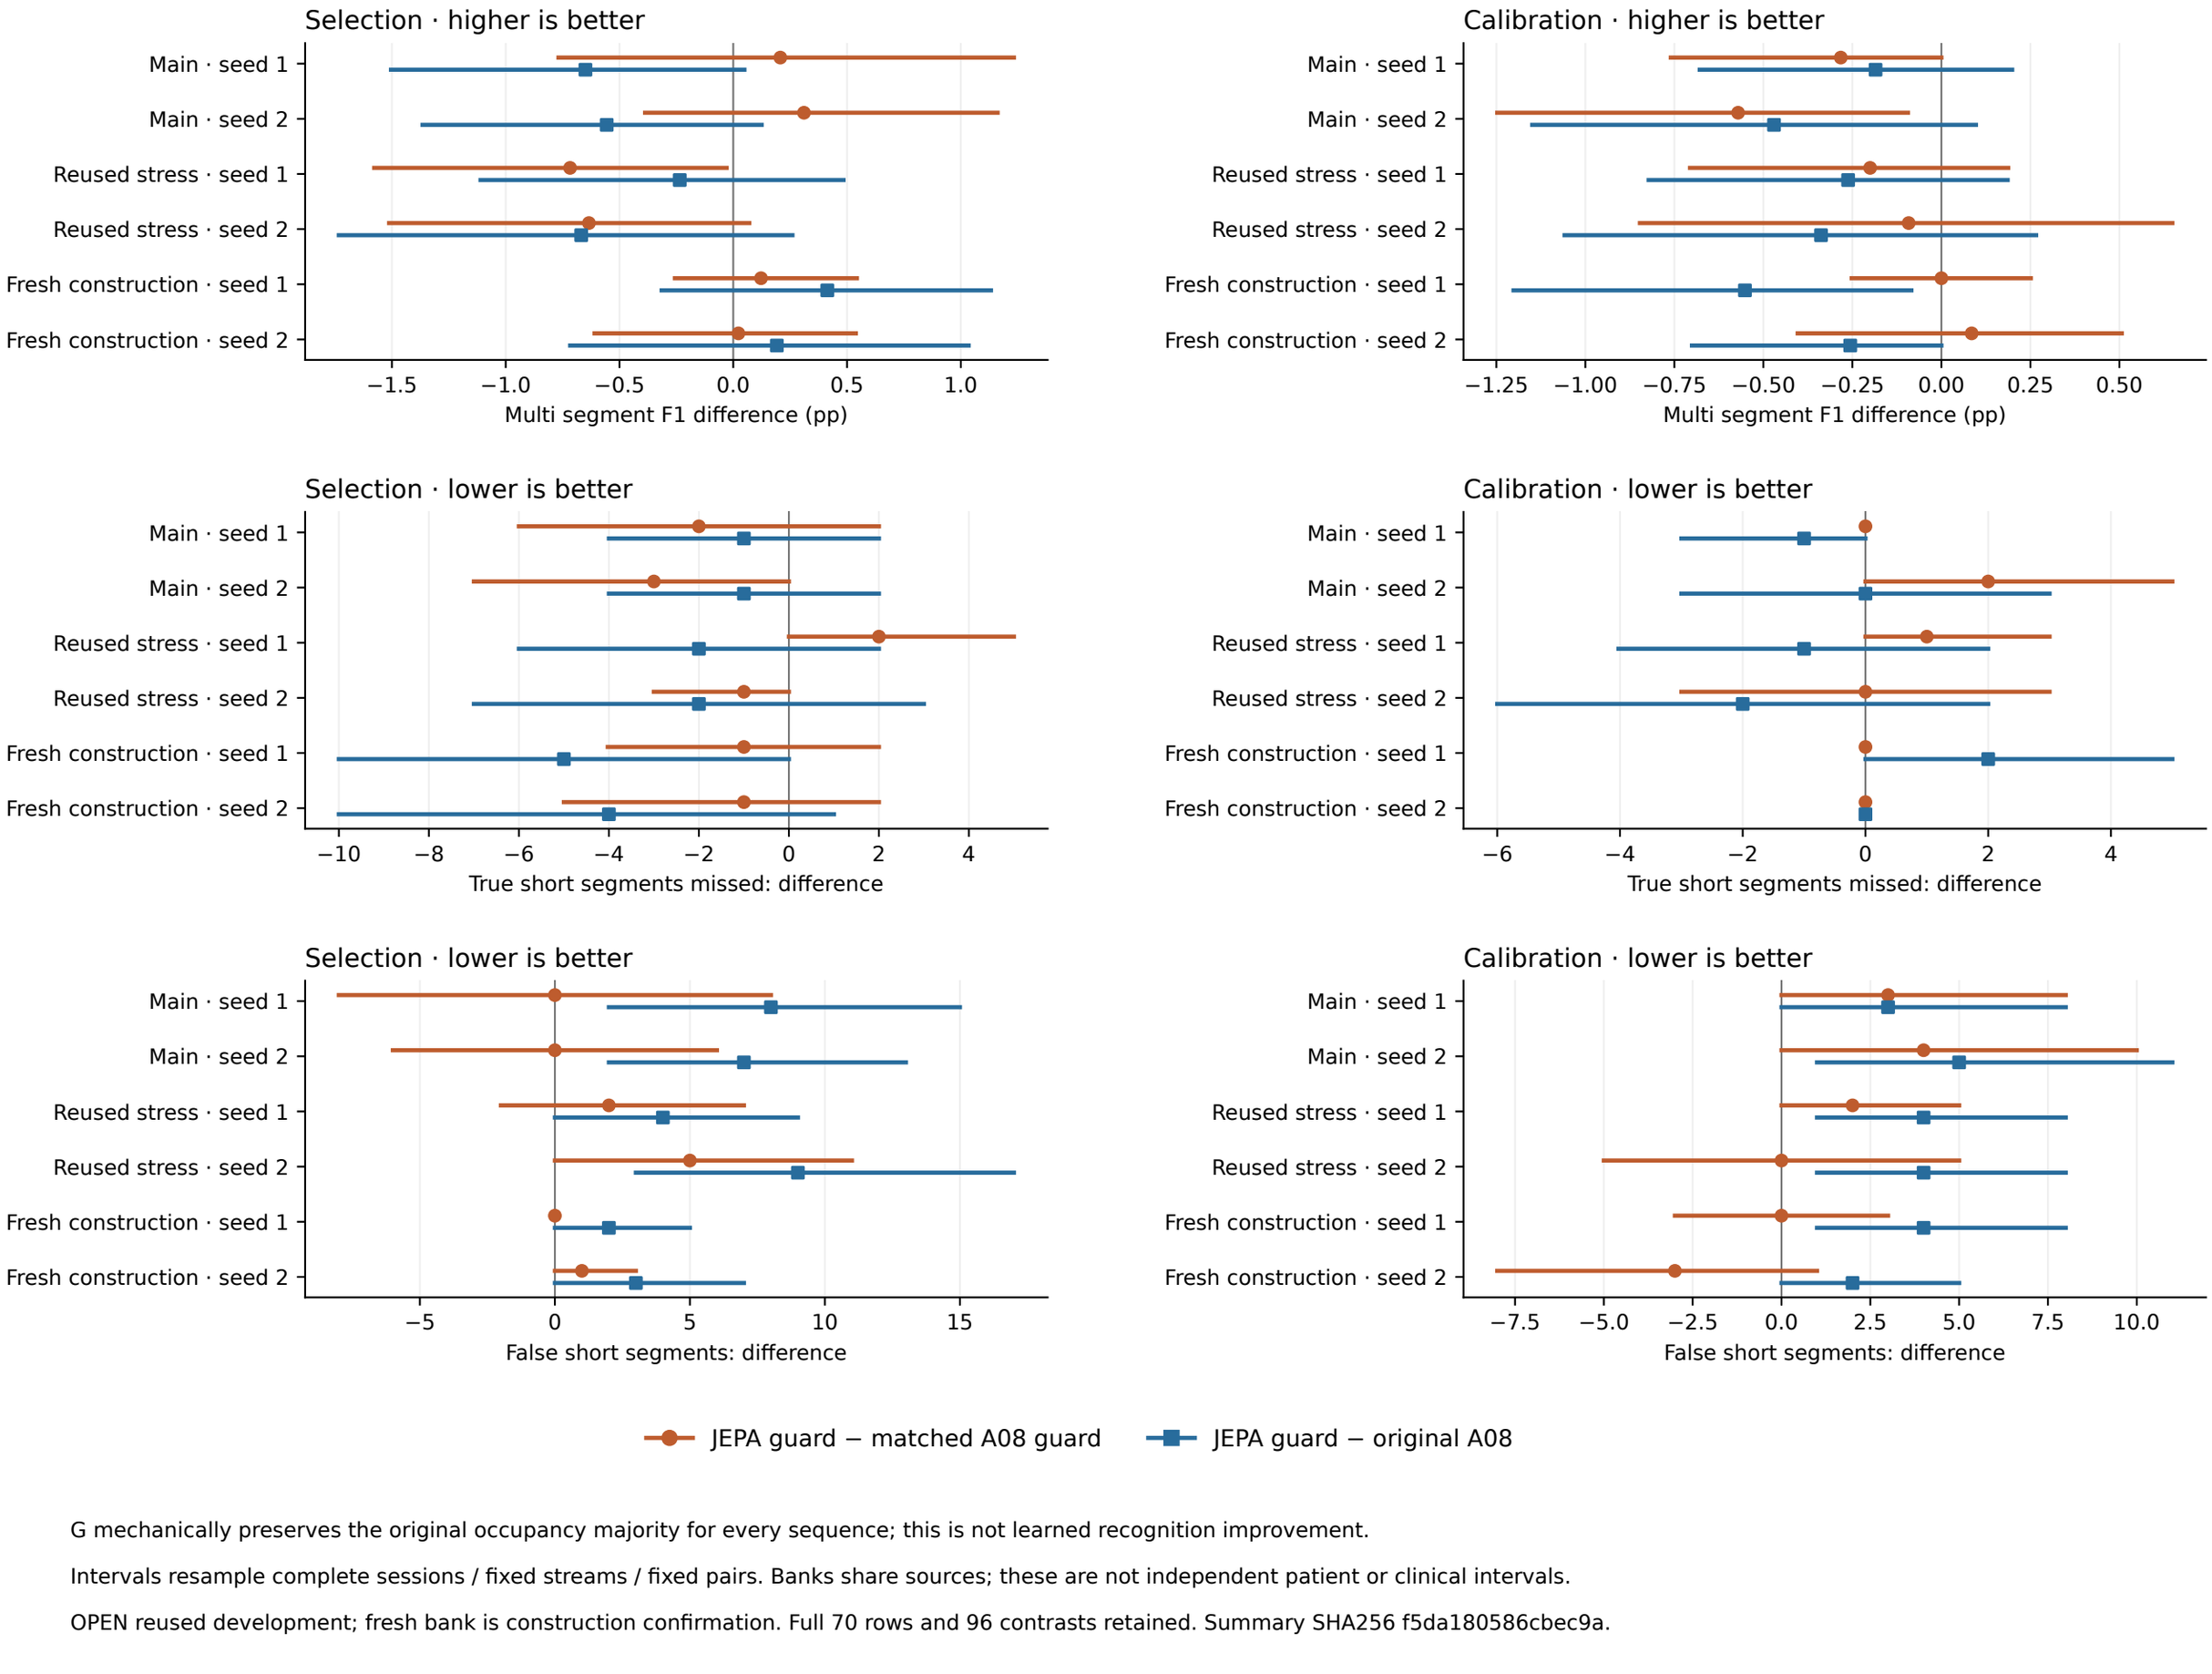
A59: fixed A08 anchor, learned single edits

Fixed 6000 updates in both seeds; paired conditional 95% intervals. Short = at most 16 positions (1.6 s at 10 Hz).



G mechanically preserves the original occupancy majority for every sequence; this is not learned recognition improvement.

Intervals resample complete sessions / fixed streams / fixed pairs. Banks share sources; these are not independent patient or clinical intervals.

OPEN reused development; fresh bank is construction confirmation. Full 70 rows and 96 contrasts retained. Summary SHA256 f5da180586cbec9a.
